Gregrey Smith  
Energy Optimizers, USA  
7960 S. Co. Road. 25 A  
Tipp City, Ohio 45371

Mr. Smith:

I would be remiss, if I did not thank both Waibel-Trane and Energy Optimizers, USA for costs incurred in the re lamping of the two gymnasiums at Springfield High School.

The financial obligation assumed by your companies under the H.B. 264 Phase II Project is deeply appreciated; and obviously is a direct benefit to the Springfield City School District.

Your generosity in spirit...and in purse...will make it possible for the district to expend its funds on curriculum and instructional materials that increase student achievement.

Sincerely,

Michael G. Whitfield  
Business Operations Manager
